

M'ADOO BOOM STILL IN AIR AT SAN FRANCISCO

Friends Sure Former
Secretary Will Be
Nominated

DEADLOCK IS EXPECTED

SAN FRANCISCO, Cal., June 24.—Despite W. G. McAdoo's announcement that he would not be a candidate for the Democratic presidential nomination, his name recurs frequently in gossip in national convention circles. The McAdoo boom for the roots and war chests, of which the senate campaign investigation committee sought in vain, appears to thrive even against the frosty attitude of Mr. McAdoo himself. Its chief characteristic continues to be the same intangible quality that daunted the senatorial boom investigators.

On the surface, McAdoo supporters have accepted his dictum and publicly transferred their allegiance to other candidates.

There is something about their alacrity, however, that makes other Democrats here wonder whether they will stay put in their new affiliations. Privately some of these former McAdoo supporters admit they have not lost hope that he will be the nominee. They state their case bluntly. The business of the convention is to nominate a man who can be elected, they say. They regard the Republican ticket and platform as "encouraging" from a Democratic point of view and believe the brass tacks of politics will dictate McAdoo's nomination as the man who could be elected. They are shaping their present course, they admitted, in anticipation of a deadlock between Attorney-General Palmer, Governor Cox and the other prominent aspirants and a general swing to McAdoo at that point which would result in his election.

Meanwhile reports of other candidates have been busy mapping out their campaigns. They also see a deadlock in the balloting and it was indicated today that some thought was being given to the number of ballots supporters of particular candidates would be asked to stick and to whom their support would go after that time. Neighborly considerations, it is said, are apt to play a part in the course of delegates from Pennsylvania, Ohio and West Virginia, when the expected break comes.

Each has a candidate in the field, Palmer from Pennsylvania; Cox from Ohio, and John W. Davis from West Virginia. Should the early balloting make it apparent that the necessary two-thirds majority to nominate could not be obtained for Palmer or Cox, Davis supporters claimed today he would inherit the Pennsylvania and Ohio delegations. They anticipated a general surge toward Davis under the impetus furnished by these powerful blocks of votes.

Arrival of Senator Glass of Virginia added nothing today to the discussions as to candidates. There was nothing to indicate that he had brought any message or suggestion on that subject from his conference with President Wilson. The senator's own views were not disclosed in such statements as he has made since his arrival.

He has been generally classed, however, among those who are strong believers in Mr. McAdoo's availability.

Supporters of Vice-President Marshall at the situation today much as did the Davis adherents. They thought Marshall would figure very prominently if a deadlock developed as expected and their plans were drawn with that in mind. The vice-president will arrive tomorrow from southern California. The only presidential candidate from the grand today receiving delegates and visitors, was Senator Owen of Oklahoma. He did not discuss his chances for the nomination, but was willing to talk about the platform. The party declaration should be short and written in the simplest English and should emphasize the "all embracing" doctrine of popular government, he said, adding that it should declare for the faithful execution of the eighteenth amendment.

Attorney-General Palmer will arrive tomorrow. C. C. Carlin, a Palmer manager, said the situation so far as the attorney-general's candidacy was concerned, was satisfactory.

The headquarters of Governor Edwards of New Jersey, avowed wet candidate, showed activity today with the arrival of Walker Vick, chief manager of the Edwards boom. Disappointment was expressed by many Edwards supporters over the inability of the New Jersey governor to come in person.

Preceding the arrival of the bulk of the Ohio delegation there were no developments in the campaign of Governor Cox. In fact, there was no great activity at any of the headquarters as the big rush of delegates will not begin until tomorrow.

DEMOCRATS EXPECT STIFF FIGHT OVER DRY ENFORCEMENT

Bryan Will Arrive in 'Frisco
Today to Take Charge of
Bone Dry Element

SAN FRANCISCO, June 24.—Mobilization of Democratic forces for the expected clash over a prohibition enforcement plank in the platform will approach completion tomorrow when W. J. Bryan arrives.

The Nebraskan is generally regarded as field marshal of the bone dry element. He may also function as supreme commander of allied and associated interests opposed to President Wilson's platform views and his arrival is expected to see battle lines for the whole platform sharply drawn. While the enforcement question remained the outstanding issue with the factions as far apart as the poles, interest in other platform questions was stimulated by the presence of Senator Glass of Virginia. Supporters of proposals to modify the Volstead act are taking presidential favor or but up to date, Mr. Glass has not indicated what views Mr. Wilson may have expressed in this regard.

Mr. Bryan has already disclosed he has a plank of his own to present on the enforcement question. He is understood to favor putting the party on record for rigid enforcement, to the full limit of the Volstead measure. Between this suggestion which gained the support of Senator Owen of Oklahoma and that of the enforcement regulations advocated, the gulf is so wide that no possibility of compromise is visible unless it should be on an agreement to ignore the subject entirely.

The bone dries have a working majority on the committee. They are credited with a slight majority in the convention itself, but their adversaries are very hopeful this can be upset. There is pressure to expedite proceedings as much as possible. For that reason it was said today that if an enforcement plank was framed by the committee probably it would be allowed to go to the convention with virtually no time devoted to committee debate by its opponents, but accompanied by a flatly contradicted minority report that would bring the whole subject into the open forum of the convention itself.

RYAN WILL CARRY CASE TO COURTS

NEW YORK, June 24.—Expelled today from the New York Stock Exchange, Aallan A. Ryan, principal figure in the alleged Stutz Motor car last March to-night announced he would carry his case to the courts and "stand or fall on his case as the case as he public has it."

There was a flurry of excitement at the opening when the governing committee announced a verdict of expulsion for "conduct inconsistent with just and equitable principles of trade."

At first Mr. Ryan was silent. Then he issued a brief statement announcing in French that "we shall see what we shall see." Later he prepared a long newspaper advertisement which was interpreted on the street as a confirmation of reports that he would bring \$1,000,000 suits against the exchange and some of its officers.

EXPLOSION KILLS FOUR WORKMEN AT SPRINGFIELD

Plant of Western Cartridge Company is
Partially Wrecked

CAUSE NOT DETERMINED

SPRINGFIELD, Ill., June 24.—Investigation of the powder explosion and fire, which cost the lives of four workmen and partial destruction of the Western Cartridge company's plant north of Springfield this morning, tonight had resulted in no definite conclusion as to probable cause.

Coroner Scott Walter will hold inquests tomorrow. The dead are: William Ingram, assistant powder operator, and William Dillard, apprentice and high school student, whose bodies were found in the wreckage; Lee Kane and Chester Hauck, workmen, who died later at St. John's hospital.

Bodies of Ingram and Dillard were not found nor was it believed any deaths had been caused until six hours after the explosion. Two other workmen, Victor King and Joe Frohwitter, were seriously burned.

Officials of the company are at a loss to explain the explosion. Refusing to be quoted, they say it might have resulted from the lodging of a bit of metal in the powder press. This would have caused a spark, setting fire to the fifty pounds of powder in the finishing process.

DEMAND MISSOURI G. O. P. CHIEFS RESIGN

SEDALIA, Mo., June 24.—Missouri Republicans, representing fifteen of the sixteen congressional districts, met here today to demand the resignation of Jacob L. Babler, Republican national committeeman; W. L. Cole, Republican state chairman, and "all other committeemen" who may have received money "under similar circumstances," from pre-convention funds of candidates for the Republican presidential nomination. The resolutions also authorized the appointment of two committees whose duty, in case of the failure of Cole and Babler to resign, to lay all facts connected with the action of the meeting here today and activities of Babler and Cole, as divulged by the senate committee investigating pre-convention expenditures before the Republican national committee and the Republican state committee demanding their expulsion.

STATEWIDE HOME RULE APPROVED BY BASIC CONVENTION

Would Give Cities and Villages Complete Powers of Self Government

SPRINGFIELD, Ill., June 24.—State-wide home rule for municipalities was provided for by the constitutional convention this afternoon. By acclamation, the delegates approved the original section, qualified by the requirement that home rule shall apply only to cities and villages having or hereafter adopting a charter, as provided in a later section of the report. Opposition, voiced by several downstate delegations, who declared their communities did not want home rule, failed of sufficient weight to require a count of votes. The home rule provided for would give cities, villages and incorporated towns "full and complete powers of local self-government and corporate action for all municipal purposes."

This power, however, is subject to existing or further laws, which makes subject to legislative supervision.

After the first six sections were passed the convention struck a snag in Section 7, which would provide that any city or village might control rates and services of public utilities and that contracts made on such subject would be inviolable for a term of twenty years. After long debate it was defeated. Debate on other sections of the report will be resumed tomorrow.

BAPTISTS QUIT INTER- CHURCH MOVEMENT

BUFFALO, N. Y., June 24.—The Northern Baptist convention today voted after lengthy debate to terminate relations with the inter-church world movement. Eminent lay and clerical delegates spoke in favor of the movement, but the resolution submitted by the board of promotion was finally approved.

D. Courtland Myers, pastor of Tremont Temple at Boston, recommended that the inter-church world movement be buried in a grave so deep that there will be no danger of a resurrection. He charged that autocracy was running the Baptist denomination.

EXPECT DECISION NEXT WEEK BY RAIL LABOR BOARD

Reports That Board
Faced Deadlock
Denied

WILSON URGES EARLY REPORT

CHICAGO, June 24.—The railway labor board may hand down its decision fixing new wage schedules for all classes of railroad workers next week. No date can be set definitely however, according to Judge R. M. Barton, chairman, as reconsideration may delay the final award for a week or more.

Judge Barton denied reports the board faced a deadlock because of the widely divergent opinions of the members representing the roads and the men. Publication today in Washington of the text of President Wilson's message asking the board to expedite its award cleared up the mystery which has surrounded the telegram, receipt of which had been denied by members of the board.

Judge Barton announced that it was sent him last Monday marked "personal and confidential" and that he had therefore withheld it from the rest of the board.

He declined to make public his answer, but said he would be glad to have the president to see. The request embodied the president's message that, if a complete award could not be made at this time, a "partial settlement" be announced could not be acted on, Judge Barton said as the hundred or more separate schedules are all related and it may be necessary to revise awards tentatively decided on when all the figures are completed.

Two moves looking toward settlement of sporadic strikes will be taken here tomorrow. Heads of all the recognized railway unions will meet for a conference at which time the situation will be discussed and also will endeavor to learn more definitely when the board's decision will be announced.

Tomorrow night the Chicago Yardsmen's association and the United Engine-men's association, the organizations of "railway unionists" as the strikers term themselves—will hold a meeting.

Reports show that the present wave of strikes is confined largely to the Atlantic seaboard. In the central west there have been half a dozen minor walkouts and without exception the strikers have returned to work after a day or two of idleness.

The question of what to do with the strikers will be considered at the meeting of brotherhood chiefs tomorrow.

W. V. O'Neil, president of the International association of supervisors of mechanics today presented a plea to the labor board that demands of his organization be heard. He declared it had nothing in common with the American Federation of Labor but felt entitled to consideration as a middle class union mid-way between the capital group and the organized labor group.

SENATOR HARDING DEVOTES MOST OF DAY TO CORRESPONDENCE

Letters Coming in to G. O. P.
Nominee at Rate of 4,000
Per Day

WASHINGTON, June 24.—Senator Harding received only a few visitors today and devoted most of the day to correspondence. So great has the crush of mail become that he has been compelled to direct the greater part of his time to that work in his office and at his home in the evenings.

In addition to the usual daily delivery of between 3,000 and 4,000 letters, mail bags containing approximately 15,000 letters sent by express from his home at Marion, Ohio, were delivered today.

Senator Harding had hoped to be able to leave his office for a day at a time to rest, but it was said tonight all prospects for any sort of a vacation had been abandoned.

Colonel Roosevelt, Jr., is to confer with Mr. Harding tomorrow. He will come at the senator's invitation, and is one of the numerous progressive leaders summoned to discuss campaign plans.

Among those who called today were, Senator Fletcher, Democrat, of Florida; T. C. Atkinson, Washington, representative of the national grange, and Elmer Dover of Tacoma, Wash., former secretary to the late Senator Mark Hanna, and later secretary of the National Republican committee.

MARSHALL FAVORS POST CARD PLATFORM

SAN FRANCISCO, June 24.—Vice President Marshall made it known today that his activities during the Democratic national convention would be directed toward working as a delegate at large from Indiana for a safe and sane platform.

"Put a good man on it and let him go to it," he added.

On his arrival late today from Del Monte, Cal., he said he was not a candidate for any office and had not decided for whom he would vote in the convention. He said he would like to have the platform brief and explicit. Disclaiming knowledge of any move to place him on the resolutions committee or make him chairman of it he said:

"If I were making up the platform I would write it on a post card and in such terms that if we were wrong the whole country would know it."

Mr. Marshall he did not anticipate any serious prohibition issue.

"My personal views on this question are unchanged," he continued. "I was not in favor of prohibition originally, but now it is ingrained in the constitution and it should be observed."

PULLMAN RATES WILL BE INCREASED

SPRINGFIELD, Ill., June 24.—Pullman sleeping car and parlor rates in Illinois were increased to the level of interstate rates, by order of the state public utilities commission today. The increase will go into effect July 1.

Beside the Pullman company the same advances were granted the Chicago, Milwaukee & St. Paul railroad which operates in interstate sleeping cars; and the Chicago & Eastern Illinois which operates parlor cars between St. Louis and Chicago.

These new rates provide that the minimum charge shall be raised from thirty-five to fifty cents.

Lower sleeping berths will be advanced twenty per cent adding a sufficient amount to make all rates and 25, 30 or 75 cents or \$1 with a minimum rate of \$2.

Upper berth rates shall be eighty per cent of lower berths, drawing rooms, three and one half times lower berth rates and compartments 2 and eight tenths times lower berth rates. Chartered cars rates will be advanced twenty per cent.

These rates will give the Pullman company a profit of seven and one half per cent on investment.

PICKING LEADERS BY DEMOCRATS WILL BE DIFFICULT

Elements of Uncertainty Appear More
and More in Lineup

PLATFORM IS CHIEF TOPIC

SAN FRANCISCO, June 24.—More and more elements of uncertainty appeared in the lineup of the Democratic national convention as the leaders of first magnitude arrived in "increasing numbers and put their heads together over questions of policies and men."

For the time being the platform held its place as the main topic, with the problem of one day prohibition the chief matter for controversy.

Talk of candidates was revived appreciably as the convention crowds gathered. Boosters for Palmer, Cox and a half dozen other aspirants became increasingly active among uninstructed delegates and a whole bevy of favorite sons and dark horses blossomed out with headquarters of their own.

Meantime the phantom McAdoo boom stalked serenely thru hotel corridors and conference rooms leaving behind a trail of uncertainty and speculation. The publicly executed at the hands of McAdoo himself, the movement did not down. Indeed its perambulations were suggestive of the pink of vigor and it turned up uninvited at the ghost at the council table of more than one candidate's manager.

On several questions of convention organization, too, the party chiefs were in a quandry. There were some rumblings of a fight against Senator Glass, the administration choice for chairman of the platform committee and the problem of choosing a permanent convention chairman got into a mess which threatened to upset seriously the plans of some administration supporters.

Senator Walsh of Montana, who voted in the senate last March for ratification of the peace treaty with the Republic, announced reservations, promised to become the storm center of the organization fight. In some quarters he was urged as a candidate against Senator Glass for head of the platform committee, the others thought he should have the permanent chairmanship instead. He had the backing of William J. Bryan and was said to be favored also by other powerful forces more or less out of accord with some administration policies.

The administration people have suggested Secretary Colby of the state department, or Chairman Cummings of the national committee as permanent chairman, but it was said today no decision had been reached and that Senator Walsh might be accepted as satisfactory. The general trend tonight seemed to be to put him forward for the convention chairmanship rather than for the head of the platform committee.

Chairman Cummings and other national committee officials discounted talk of an open administration fight and protested vigorously against lobby gossip that President Wilson was attempting to dictate either in regard to the candidate or the platform.

"I am aware," said Mr. Cummings, "of no intention by the president to communicate to the convention in any way, shape or form. I anticipate no voluntary suggestion from him."

He added, of course, there could be no restraint on the part of his friends in any communication they might see fit to establish with the White House, but he said the whole attitude of the chief executive had to let the convention work out its own destiny.

Senator Glass, who arrived last night, as the commonly reputed spokesman of the White House, also denied the president would seek to control the deliberations. The senator came to make a fight favorable to the administration, but if he brought any word of White House preference between candidates it did not show up on the surface in today's conferences.

The more one reads of the Elwell murder case the less one thinks of the high society of New York City. The acknowledged gambler and turfman with scores of married and unmarried women on his "list" seems to have enjoyed the companionship of society leaders.

Strange things happen in politics. Congressman Volstead of Minnesota has been defeated in the district which he has represented for seventeen years. The strange part of it is that his political enemies united on a Prohibition candidate to defeat the author of the prohibition enforcement bill. It's a little hard to explain.

Recommendations continue to be made from one source and another about relieving the coal shortage. Meanwhile none of

these suggestions are carried out. Cars are scarcer, less coal is burned and the whole fuel situation is getting worse every week. Somebody ought to be able to find the way to remedy the difficulty.

Some of W. J. Bryan's critics are trying to show that he will have little to do in settling the affairs at the national convention. Their claim reminds one that according to the same sources of information Mr. Bryan has been politically dead for decades. Nevertheless it's a safe guess that he will have a very decided influence with the San Francisco convention.

The latest guess is that Mr. Bryan is preparing to spring the candidacy of Champ Clark at the national convention and so in a measure make amends for the Baltimore incident. There, it hadn't been for the Bryan influence the Missouri would have been the party nominee. Mr. Bryan has had many reasons to regret the action he took at that time.

WHY DELAY THE AWARD?

Just why the railroad wage board should be so long in making known its findings does not yet appear. Certainly with all the investigations which have been made in the last two years about the railroad employees situation the board should have enough material available to enable the members to make their finding.

Probably it's just a question of how much increase shall be granted and inability to agree on the exact amount is postponing

the decision. It will help out the general situation very much if an early finding can be made.

After all the talk and bluster about the wet and dry planks and about matters which might become a part of the Democratic platform, it is a safe guess that the San Francisco convention will adopt a compromise measure and endeavor to satisfy all differing forces.

Talk about pussy footing and sidestepping in relation to national problems—they'll do it in the coast city.

FOR A MILD FOURTH

Not satisfied with their attack on sky rockers and giant crackers, as a part of the Fourth of July celebrations in the east now they are seeking to banish even the sparklers. The record of several children's deaths because of clothing catching fire from the sparkler furnishes the ground work for the latest of anti-celebration campaigns.

Boys and girls of today won't resent this interference with the noisy Fourth nearly so much as they would have a few years ago. Using up gasoline in automobile travel is now one of the most popular forms of Fourth of July celebrations.

THE POPULATION FIGURES

Morgan county has shown a loss of two or three hundred in its population during the last ten years. There is nothing surprising about this report, for the same thing holds true of nearly every agricultural county in the corn belt unless there happens to be an industrial city located in such county.

The tendency of recent years has taken young men from the country and the smaller cities to the industrial centers. Then another factor has been the increase in the price of land. With much of the land in the county selling from \$250 to \$350 per acre, it is a natural sequence that some of the residents seek localities where land prices are lower.

MAKING BOGUS CHARGES.

All this talk about the presidency being for sale every time a candidate or his committee makes an appropriation for publicity purposes is sickening. A wall

has gone up from the usual sources because the Republican national committee has had printed lithographs of the candidates which will cost about \$700,000.

When it is remembered that the whole U. S. must be covered with this publicity program, the amount is really insignificant. You can't run a national political campaign without the expenditure of millions of dollars, and some of the very people who are criticizing expenditures know this very fact.

LEN SMALL AND THE GOVERNORSHIP.

The entry of Len Small of Kankakee into the race for the governorship of Illinois is not surprising to men familiar with Illinois political affairs. At the state convention Mr. Small was one of the limited group outside of Cook county who supported Mayor Thompson's platform. The forecast then was that Mr. Small would later become a candidate for governor and would have the Thompson Lunda backing.

If the Kankakee man can summon reasonably sound down state he will be a formidable candidate for Gov. Lowden or one of his friends to meet in the primary contest.

Rippling Rhymes

By Walt Mason

GRIEF EVERYWHERE.

I'm in a land enchanting, where springtime always dwells, and birds are gallivanting around me, wearing bells. Here no one ever freezes, no sunstroke threatens me, and hear the soothing breezes come sighing from the sea. It's like a dream of Eden, one flower bespangled lawn, a hand to rest and read in, and bid all woes begone. Here we should all be joyous, where tranquil springtime lives, where nothing can annoy us in all that nature gives. Yet men dig up sorrow, and if no grief they own, they go around and borrow some woe o'er which to groan. This morning I was sitting beneath some tropic trees; a stranger with his kuiting came up to share the breeze. I said to him, "O strange-

er, this is a wondrous day, and thoughts of grief and danger seem worlds and worlds away!" He viewed the distant steeples, the San Diego towers, and sighed. "The yellow peoples have spoiled this land of ours!" And then he raged and rumbled, and voiced his doubts and fears, he ranted and he grumbled and shed a quart of tears. And all through his repining, and through his "woe is me," a golden sun was shining upon the sparkling sea.

HOPPER FAMILY IN ANNUAL REUNION

Event Was Held at Nichols Park Thursday Evening—Officers Were Elected.

The annual Hopper picnic and reunion was held Thursday evening at Nichols park. One hundred and twenty-five of the family and guests were present and enjoyed a bountiful picnic supper and a general good time. Mr. Richard Hopper was the oldest member of the family present, and Mrs. Thomas W. Hopper of Harrisonville, Mo., and Mrs. May Hopper John, of Omaluge, Okla., were those who came the longest distances.

When Thomas Hopper, the father of the present Charles Hopper, was living and the family had not attained its present size, it was the custom to hold an all day picnic once a year but as the family now numbers 152 and they are scattered it has become the custom to hold the reunion in the evening.

The family has been singularly blessed during the past year for there have been no deaths and the family has had two additions by marriage and five by birth.

The following were present at the picnic: Richard Hopper and wife, James Hopper and family, Sam Young and family, Richard Dodsword and family, Charles Martin and family, Eunice and Anna Hopper, Dr. Charles Hopper and family, Albert Hopper and family, Charles Teeland family, Mrs. May Hopper John, Mrs. Thomas W. Hopper, Charles Hopper and family, Thomas Hopper and family, Fletcher Hopper and family, Fred Hopper and family, Hugh P. Green and family, John Moore and family, Phillip Hopper and family, Robert Hopper and family, Howard Cully and family, Cester Wilson and family, James, Albert and Anna May Philson, Rev. WATKINS FUNERAL

HELD AT PETERSBURG.

Funeral services for Fannie Marie Watkins were held from the family home in Petersburg, Ill., Monday afternoon at 2 o'clock. The child died Saturday after an illness which covered a period of six years. She was the daughter of Mr. and Mrs. Edgar Watkins of Petersburg and a granddaughter of John Onken of Chapin.

Besides her parents the deceased is survived by one sister and a number of other relatives. She was a child of bright and happy disposition and her death brings a sense of great loss to the family circle. Thru all the long years of her suffering little Fanny was very patient and cheerful and her example was one which older ones might well emulate.

GRAND

Today and Saturday

One of the most novel attractions of the season will be

Kulola's Hawaiians

which comes to the Grand Opera House today and tomorrow.

The Kulolas are presenting their musical, singing, dancing and instrumental production, "The Princess of Paradise," in which all the native songs, dances and instrumental numbers are played and sung as have never before been offered to the amusement public. This company played a two weeks' engagement at the Tabor Grande Theater, Denver, to record-breaking business and will no doubt be the banner attraction of this season here. The company not only sing the native songs, but sing American songs as well, which is something new for Hawaiians to do. This clever company demonstrates that its members are equal to anything when it comes to entertaining the public.

The picture is also out of the ordinary and is called

"THE HONEY BEE"

A Flying A-Super-Production in six acts from the celebrated novel by Samuel Merwin with

Mme. Marguerita Sylva

the brilliant Belgian prima donna and celebrated opera star, supported by an all-star cast, including Kid McCoy in a spectacular prize fight between the American and French champions—the latter impersonated by Kid McCoy—with the terribly tense moment, during round two. The uproariously funny fight between Fat Ed Johnson and Skinny Will Harper, prefaced by Will's insolent shimmy-shaking in imitation of Johnson's trembling anger.

This is a special show all the way through and you should not miss any part of it.

Matinee today and tomorrow 2:30. Prices 15c and 35c

Night shows 7:15 and 9:00. Prices 25c, 35c, and 45c.

CAME HOME TO DIE

"Three years ago I came home thinking 2 or 3 weeks would be my limit to live. I had suffered for 15 years from colic attacks and severe liver and stomach trouble. I happened to see an advertisement of May's Wonderful Remedy and purchased a bottle at the drug store and after taking the first dose I felt better than I had for 15 years. I am now in the best of health—thanks to May's Wonderful Remedy." It removes the catarrhal mucous from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at all druggists.—Ad.v

"JUST ONE" AND IT'S ALWAYS DONE

"Just One" is the Name of the Only Laxative of Which Just One is Always the Right Dose.

Just one tablet of "Just One" is always a "just right" dose. The only laxative that never wears out, that gives the same results year in and year out, that your system does not become callous to, and that never needs to have its dosage increased.

All other laxatives work well only until your system gets used to them. Then you must either get a different kind or increase the dose. With "Just One" you get an entirely different laxative at each dose, because each of the 20 similar looking tablets in each box is made of different laxative ingredients. Each is a tried and proved successful formula, each is thorough, dependable, and pleasant in action and each is different from the other 19. That's why they never wear out.

Quit pounding on one particular organ all the time. Use a laxative that works on different organs each dose. Stir up your liver one time, your pancreas another, your lower bowel another, and so on, always changing. You'll get much better results and without having your system as other single-formula laxatives, harm it. Try this new, scientific way and you'll see why it is so much better.

Don't let the day pass without getting your box of "Just One." Any druggist anywhere can get "Just One" for you, or we will send it postpaid upon receipt of 25c per package. Ferritone Chemical Company, Council Bluffs, Iowa.—Adv.

WINNEBAGO COUNTY FARMERS IN PICNIC
Rockford, Ill., June 24.—Before 4,000 Winnebago county farmers at annual Pamona Grange picnic here today, John C. Ketchum, Hastings, Mich., master of the National Grange, declared that lack of sympathy on the part of city folks with agricultural problems was one of the chief causes of unrest. The crying need of cities for homes is offset by thousands of vacant farm houses, he said, as he deplored the weaning of people from the farms.

SUCCESSOR TO LONG.
Washington, June 24.—Major Van Smeler Smith of New York was sworn in today as third assistant secretary of state announcement of his appointment having been made earlier in the day. He succeeds Breckenridge Long who recently resigned to enter the campaign for the Democratic nomination for United States senator from Missouri.

How Spinal Defects Occur

MANY persons have asked how the spine can press the nerves and shut off the life-giving energy and cause weakness and disease in certain parts of the body. The spine protects the spinal cord through which energy passes from the brain to the net-work of nerves that supply every part of the body. The spine is made up of separate moveable parts that are easily displaced and are sensitive to every strain and jar.

Causes of the Fatal Pressure

In fact there are many contributory causes that lead to defective spines and they are present every day of life. Before, during and after birth the weak and tender spine is very easily affected. The manner in which a child sits at the school desk, or the position of the man or woman while at work is likely to cause defect and curvature. Strenuous games, active play, falls, blows, sudden twists, or strains from carrying or lifting heavy weights are all likely to throw the spine out of plumb. This brings about the fatal pressure upon the nerves and throttles or obstructs the life-giving nerve currents, thus leading to disease.

CHIROPRACTIC CORRECTS SPINAL DEFECTS

It lifts the pressure from the nerves, permitting them to nourish the famished, worn out and diseased tissues and organs. With normal nerve function restored, Nature brings about healthy conditions in the organs effected. In

C. B. & Q. TRAINMAN MEETS INSTANT DEATH

Frank Norton Killed When Freight Cars Telescoped—Accident Occurred Near Concord—Coroner Rose Held Inquest.

Frank Norton, a conductor of Burlington extra south bound freight train, No. 6143, was instantly killed when four cars of the train were telescoped by the breaking of a drawbar. The accident occurred one and one-half miles southeast of Concord, about 1:30 o'clock Thursday afternoon.

Norton was buried under the wreckage and his body and head badly crushed. He was dead when other members of the train crew reached him.

The wreck blocked traffic for several hours, the south bound passenger train being behind the wreck. The wrecker was sent from Beardstown and after several hours work the right of way was cleared and traffic resumed late Thursday afternoon.

Coroner Rose was notified of the death and went to Concord Thursday afternoon and held an inquest. After the inquest the remains were taken to Beardstown where Norton resided.

Norton was in charge of the extra south bound freight No. 6143. The train was composed of 100 cars, 96 empties and four loaded cars. The train was all air equipment.

As the train left Concord a drawbar pulled out. Conductor Norton was between two cars attempting to remedy the break, according to one of the witnesses. The draw bar evidently fell to the track and caused the air to be thrown on thus causing the cars to pile up.

At the inquest the testimony of W. M. Whitlock, section foreman, residing at Concord, R. W. Martin of Beardstown member of the train crew and C. E. Kolb of Beardstown, trainmaster for the Burlington, who was aboard the train was heard.

Whitlock said when the train passed he saw Norton standing between two cars about four car lengths from the engine. Witness said Norton was pushing at something between the cars with his foot but could not say what it was.

Shortly after the witness said he heard a crash and looked back and saw the cars piling up. He hurried to the scene and found Norton under wreckage.

R. W. Martin, who is a conductor for the Burlington but was braking on the extra was riding on the way car when he saw a cloud of dust and knew something had happened. Witness said he immediately went back to flag against following trains.

C. E. Kolb, trainmaster, told the jury that the wreck was caused by the pulling of a draw bar on M. & St. L. car No. 12827. The pulling of the draw bar caused the air to be thrown on causing the train to stop suddenly which resulted in derailing five cars and telescoping several of them.

The jury was composed of J. M. Leonard, foreman; J. A. Webster, W. H. Decker, P. R. Leonard, C. E. Willard and Frank Dober. After hearing the testimony of the foregoing witnesses the jury returned a verdict that Norton came to his death by being accidentally crushed between two cars as the result of wreck of train on which he was conductor.

Norton was 37 years old and had been in the employ of the Burlington for a number of years. He was married to a Miss Nash of Chapin who survives.

KNIGHTS OF PYTHIAS
TO CONSIDER NEW LAWS

Many Important Measures for Advancement of Order Will Come up at Supreme Council at Minneapolis—Order Shows Great Growth—Other Branches in Fine Condition.

Plans for extension of the order and assumption of greater obligations for its advancement, will, according to announcement sent out by the officers, be the central thought at the next convention of the supreme lodge of the Knights of Pythias. This legislative body of the order will be convened in Minneapolis, Minn., on August 10, 1920, the date having recently been changed from August 3 by official notice from the supreme chancellor.

Nearly one million members of the order in the United States and Canada are interested in what will be done at this convention. Among the many proposed changes in the present laws are those which will, if enacted, provide for admission to membership at 18 years of age instead of 21;

Ma knows how to make our house headquarters for boys; she gives 'em

life membership; changes in funeral benefit laws; and a national tuberculosis sanatorium for members of the order.

While representation of each domain is based upon Pythian population, under the statute each grand domain must have two supreme representatives. Some have as many as five. This method of selection gives a true representation of the order and provides a method by which the supreme body is influenced only by conditions prevailing in all parts of the country.

Shows Phenomenal Growth.
The order has made phenomenal growth during the last year. The gain in membership for 1919 is reported to be over forty thousand. There has been much activity in the uniform rank and it is expected that over thirty thousand men in uniform will attend the national encampment held in Cleveland, Ohio, in July.

The insurance department reported an increase of protection amounting to a gain of over five million dollars last year making a total of over \$103,000,000 of protection provided by this branch of the order. During the first four months of this year the membership was increased over three thousand.

The Knights of Khorassan known as the "play ground of Pythianism" has more than doubled in membership in the last two years. It is with these encouraging reports of advancement that the Supreme Lodge will assemble to make provision for a broader service to the membership and plan a program of activities to meet the present conditions. Fifty-five grand domains will have representation at the convention and it is probable that the session will last ten days.

Prizes for Uniform Rank.
More than 200 companies of uniform rank Knights of Pythias, have been formed into clubs to provide funds with which to defray expenses of the company to the Cleveland encampment. Prizes amounting to several thousand dollars will be awarded for competitive drills.

The supreme temple, Pythian Sisters, with over 200,000 membership, will hold their supreme convention in Minneapolis, Minn., concurrent with the date of the supreme lodge.

El Wakodis temple, Knights of Khorassan, is the largest organization of its kind in America. The membership is over 1,200 and the features of the temple are a band of nearly 100 pieces and a drill team of nearly 200.

Red Star lodge, San Diego, is the largest Pythian lodge in the world. It has a membership of over 1,300. Five other lodges are in the race for the honors. They are Garfield, Milwaukee, Wis.; Crusade, South Bend, Ind.; Hobart, Bethlehem, Pa.; Wayne, Detroit, Mich.; and Oklahoma City, Okla.

TO COLLECT STATE AND COUNTY WAR RECORDS.

Walter R. Ryan of the war record section of the Illinois State National Historical Library spent Wednesday and Thursday in Jacksonville. He was here in the interest of both the state and county. At present a local committee is taking care of the collection and preservation of such war records of Morgan county as are available. This committee consists of Mrs. O. G. Buße, chairman; Miss Lydia Barrette, secretary; President C. H. Rammelkamp, Mrs. Hester Capps, Mrs. Lee Alcott, Hugh Green and S. W. Nichols.

This committee has been at work since last fall and their work is showing good progress. They are attempting at present to secure the record of every man in Morgan county who was in the service. For this purpose a questionnaire has been given out. Those have come in very slowly so far. The committee feels that perhaps the men do not realize how valuable such a record will be in a comparatively few years. But it should be complete to be of most use and every man is urged to fill out and return his questionnaire. Besides these service records the committee is collecting the data relative to the civilian activities of the county, such as the woman's committees of the council of defense, the Red Cross, the Liberty Loan, the Y. M. C. A. and the draft board, etc. But the committee is particularly anxious to secure letters and diaries of men in service.

Ten or fifteen years from now these will be of unusual interest. If any one knows of such material he should see that the committee is informed of it. Such material will be kept in the public library where it will be safe. Miss Barrette will gladly take charge of such material as it sent in.

At the last session of the general assembly it authorized the Illinois State Historical Library to collect the war records of the state. For this work the library established a war records section. These records are being collected and preserved when ever possible with the idea of soon being able to write a complete record of the part which Illinois played in the recent war. It is planned to cover not only the military activities of the state but also the civilian activities which constituted a second line of defense for the state and the nation. The counties were the units in this civilian work and so it is the object of the war records section to see first of all, that the county records are kept. If these are collected they may be consulted when the state history is written. Of course all of the county records will be kept in the county.

The war record section has asked a number of people connected with local war activities to write a report of the work done. In most cases these people have been willing to do so. Miller Weir has been asked to report on the selective service work; Henry Capps on the Liberty Loan; F. J. Heintz on the food and fuel administrations; Prof. J. G. Ames and Dean Hayden the work of Illinois college, and Miss Ruby Ne-

ville the work of Illinois Woman's college. One copy of each one of these will be sent to Springfield, another one will be kept here with the county collection.

A good beginning has been made here in Morgan county but in order for the work to be a real success it must have the co-operation of the public. This is a public undertaking and as such should receive the help and support of every one in the community. Ten or fifteen years from now such a collection will be a source of education and pride to those people who are now growing up and who will then ask what we of Morgan county did in the great world war. We should have the records to show them.

Even the present unusual scarcity of first-grade hard winter-wheat has not caused us to lower the quality of Valier's Enterprise Flour.

From the few favored spots untouched by the bad weather which injured so much of the crop, we secured an ample supply of grain of the usual high standard.

Every bushel commanded an exceptionally high premium, yet we paid it gladly that you might continue to have a flour of the same high quality to which you have been accustomed.

Valier's Enterprise Flour

is milled by a special slow process from this carefully selected grain. It retains all of the unusual baking qualities found only in such wheat.

Consequently you can depend on Valier's Enterprise Flour to produce uniformly good results. If you have been troubled by failures lately, which you cannot account for, try a sack. The difference will surprise you.

Of course such flour sells for slightly more but the difference is repaid in the end. You will save the complete loss resulting from needless failures and get

"Aunt Sally—she knew
how all right"

WHEN I was small,
I USED to watch
AUNT SALLY.
PUT UP fruit,
AND VEGETABLES,
FOR THE winter.
I REMEMBER how
SHE PACKED it all
IN CLEAN glass jars,
AND SEALED the tops
WITH PARAFFIN,
TO KEEP out
ALL THE air and keep
THE JUICY flavor in
AND ALL the winter.
THANKS to her,
WE HAD the fruits
OF SUMMER on our table,
SO WHEN I happened
ON SOME cigarettes,
WRAPPED NEATLY up
IN A glassine jacket,
I DIDN'T think
IT WAS just for looks,
BUT RATHER that
THE EXTRA wrapper
KEPT AIR and dampness
ALL OUTSIDE,
AND GOODNESS IN.
SO THAT'S another
BLAME GOOD reason why
"THEY SATISFY."

QUITE right, that neat glassine jacket isn't just for looks. It protects your Chesterfields from the weather—seals in the flavor of those wonderful Turkish and Domestic tobaccos—keeps them in prime shape for smoking! Rain or shine, winter or summer, Chesterfields always "satisfy!"

Boudoir talks
with Sybel on what
cocoa butter
does for freckled or
tanned skin

It always has seemed cruel to spoil the appearance of my arms in the two months at the shore since I must have them white and unblemished for evening dress during the other ten months of the year. Today I appealed to Sybel and she gave me a wealth of information.

"Constant exposure to the sun soon permanently injures the texture of the skin, Honey. The better way is to prevent sunburn or freckles and the same treatment that acts as a preventative will repair the damage if it's already done.

"Cocoa butter has medicinal properties that will prevent sunburn. Coco-Bloom, my cocoa butter cream, has all the value of the cocoa butter it contains along with other beneficial ingredients.

"Nourish the pores of the skin by rubbing Coco-Bloom in until it is entirely absorbed and you will soon be rewarded by a clear, white skin.

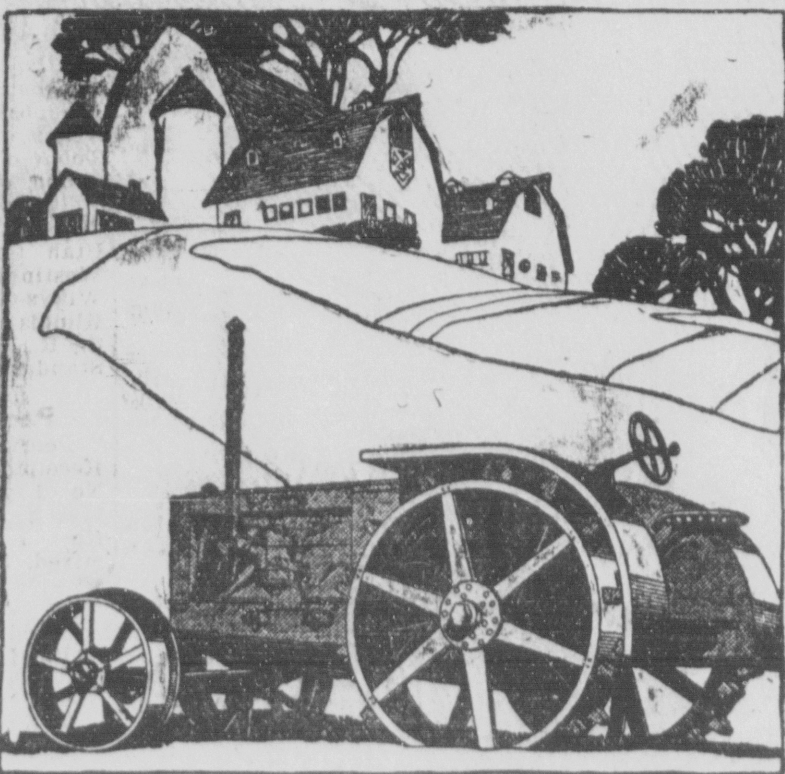

"Remember, Coco-Bloom is a cocoa butter cream, and it supplies exactly what is needed to make your skin healthy."

A letter from W. H. Farley, Waverly, Ill., to
Reeve & Curtis, Jacksonville, Ill.

June 21st, 1920.

"Reeve & Cutriss,
214-216 West Morgan St.,
Jacksonville, Ill

"Gentlemen:—

"I purchased a Wallis Tractor from you in Nov. 1919. I plowed (90) Acres for corn, in 1919.

"In 1920 I sure gave her a hard test, I put in (70) acres of oats, and (300) ares of corn. I also harrowed (100) acres of corn in (10) hours..

"I run her from 4 o'clock in the morning, until 10 o'clock at night. I never stopped the engine. I think she is the best Tractor that goes to the field.

"Here is my reason—she takes less kerosene oil, and less cylinder oil,—she runs cool,—and you don't have to be carrying water to the field, to cool her off.

"Another good reason—I could never have gotten my corn in this year, if I had not had my Wallis Tractor. She has never refused to start, just touch her with the crank and off she goes, racing to the field. She never gets tired, and never wants to stop at 6 o'clock as horses do.—And another good reason—my expense has been nothing but care and oil.

"I will cut wheat and oats, then I will pull a 24x40 Keck-Gonnerman separator with her."

Daily Market Report

MONEY MARKET

NEW YORK, June 24.—Cumulative evidence that money is likely to become tighter or more stringent in the final days of the current month overshadowed interest in the stock market today.

Call loans opened and renewed at 8 per cent, rose to 10 per cent at noon, gradually advancing to 14 per cent, a rate only once exceeded this year, in purposes time money ceased to exist further, bids of 8 1/2 to 9 per cent bringing out only the small supply.

Local banks reported similar monetary tendencies at New England and middle-western centers where financial institutions were making preparations to strengthen their reserves to meet unusually large mid-year requirements.

Foreign exchange, particularly the London rate, continued to react from the high quotation of recent days. The stock market was inclined to move forward in the early and intermediate periods of the dull session, but most gains were cancelled when money became the dominant factor.

Shares amounted to 325,000. An element of interest was injected into the bond market by the increased activity and strength of Belgian 7 1/2s, which rose a substantial fraction. Other foreign issues were steady to firm, but liberty bonds and some of the rails, notably southern railway 5s, were mostly lower.

Total sales, par value, \$12,850,000. Old United States bonds were unchanged on call.

HAS RETURNED

FROM BOSTON
Mrs. Huston, wife of Dr. Huston, of this city, has returned from a convocation of Unitarian churches at Boston. A number of eminent persons were present and the time was much enjoyed, both in the important meetings, where some of the best talent in the land was heard, and also in witnessing some of the historic scenes and localities in that historic city.

Wednesday evening, at the Congregational church, Mrs. Huston gave a very interesting account of the visit.

ROOF FIRE WEDNESDAY

The fire department was called to the residence of Mrs. Hattie Hamm, 345 North West street, Wednesday afternoon at 3:45 o'clock. Fire had started in the roof by sparks from a chimney. The blaze was extinguished without much damage. The property is owned by George Maier, and the loss is fully covered by insurance.

NURSE CHICAGO
HOSPITAL TALKS

Prominent Trained Nurse Indorses Trutona as an Efficient System Builder.

Decatur, Ill., June 23.—Where such a person as Mrs. Frank Torrence of Fairview Park, Decatur, Indorses Trutona, you cannot rightly countenance any further hesitation over trying the Perfect Tonic.

For fourteen years before her marriage, Mrs. Torrence was a trained nurse. She occupied the position of head nurse, for seven years at the Chicago Presbyterian hospital, and was associated with Decatur hospitals and did private nursing during the remaining seven years of her professional career. In a plain, yet emphatic indorsement, Mrs. Torrence tells you that Trutona is in every respect an efficient system builder. She says:

"I suffered an attack of influenza about a year ago, which left me in a run-down condition. My appetite was very poor, and I felt tired out most of the time. I began the use of Trutona, after reading the formula, which assured me that the medicine was just fitted for my case. I can say that I have received very fine results from the use of Trutona, and I can now recommend it to any one as a system builder."

Trutona's healthful action reaches every portion of the body, and performs its work faithfully and efficiently. Trutona rebuilds diseased nerves and tissues, creates a healthy appetite, and assists in the assimilation and digestion of the food.

Trutona is introduced and explained in Jacksonville by Coover & Shreve and is sold in Franklin by the Wyle Drug Co., and in Waverly by the Wyle Drug Co.—Adv.

HER FRIENDS WERE

AMAZED AT CHANGE

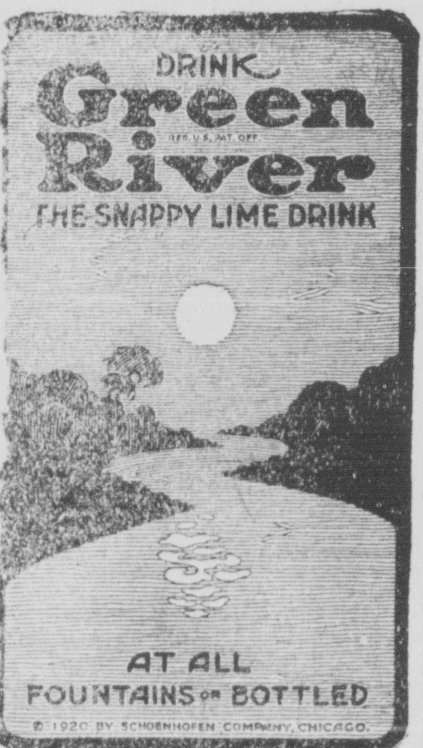

South Pekin Woman Hadn't Known a Well Day for 18 Years and Had Almost Given Up Hope.

"It may sound unreasonable but I have gained thirty-eight pounds since I began taking Tanlac and I just wish everybody enjoyed as fine health as I do now," said Mrs. J. L. Vance, R. F. D. No. 7, Box 7, South Pekin, Ill., a few days ago.

"But before I took Tanlac I certainly had my share of suffering, for during the past eighteen years I have not had a single well day, and I can hardly remember a day that I was free from a headache. Dizzy spells would come on me suddenly, and often I came near falling. I suffered a thousand deaths from indigestion. Why, the cramps in my stomach caused me such agony and my heart palpitated so bad I thought I would die. I would have smothering spells and feel so stuffy and choked up I could hardly breathe. What little I ate gave me no strength and I fell off in weight until I was so thin people hardly recognized me. My kidneys troubled me a great deal and I had such pains through my back I would break out in cold sweat. I had rheumatism in my shoulders and arms and my elbows were so stiff I could not move them without being in pain. My shoulders ached for weeks at a time. I was out of the question and I was in such misery I thought it would run me distracted.

"It was only a few days after I began taking Tanlac when the pains started leaving me and I was eating better and sleeping better and my whole system seemed to be responding to the effects of Tanlac. And today I am perfectly well in every way. The indigestion has left me entirely and I can eat anything without suffering afterwards. I have not had a headache or dizzy spell since I started taking Tanlac and the rheumatism has disappeared altogether. My kidneys never trouble me at all and the pains in my back are all gone. I am sleeping soundly every night and I have gained back all my lost weight and several pounds more. My friends say it is simply marvelous how I have changed, and I give thanks and praise to Tanlac for restoring my health."

Tanlac is sold in Jacksonville by Coover & Shreve and by the leading drug stores in every town. Adv.
